

**December 2015**

## ***REACH CERTIFICATION***

### **To Whom It May Concern**

We would like to inform you that we have assessed whether Regulation (EC) 1907/2006 of the European Parliament and of the Council (**REACH**) is applicable to the products produced by us:

**PLAZIT 2001 (DUNS No. 53-254-1521)**

1. The products and their packaging are 'articles' under REACH, therefore they do not require registration.
2. They do not intentionally release substances under normal or reasonably foreseeable conditions of use.
3. The substances in the articles do not have to be registered under REACH.
4. We hereby declare that none of the products that we supply contain any substances on its own, in mixtures or in articles listed in the most updated Candidate List, in concentrations exceeding 0.1 % (w/w).
5. We also declare that we will send an updated and appropriate declaration immediately after new SVHC are added to the Candidate List, as will be published from time to time on the European Chemicals Agency. <http://echa.europa.eu/web/guest/candidate-list-table>

<b>Number of substances on the Candidate List: 168 (last updated: 17/12/2015)</b>
---

\* All materials we purchase from suppliers to our production are REACH certificated, if required.

6. EU & EEA suppliers of articles which contain substances on the "*Candidate List*" in a concentration above 0.1% (w/w) must provide sufficient information, available to them, to their customers and on request to consumers within 45 days of the receipt of this request. This information must ensure safe use of the article and, as a minimum, include the name of the substance.
